

March 31, 2016

FOR IMMEDIATE RELEASE

Platte River Bridge South of Gothenburg

Weather permitting, construction will begin on April 11, on the Platte River Bridge south of Gothenburg on N-47 at R.P. 61+49, according to the Nebraska Department of Roads.

Construction will include grading, bridge work, guardrail, asphalt pavement and general items. New surfacing will be placed north and south of the Platte River Bridge. Once the surfacing is completed, the bridge work will begin on the Platte River Bridge with traffic reduced to one lane and controlled by traffic signals with a 12' maximum width restriction. All work is anticipated to be completed in the fall of 2016.

Motorists are reminded to be extra careful in and near highway work zones, and to buckle up, every trip.
